League Outline Ready. Conference Probably Will Use

Bryan Peace Plan. Paris, Jan. 13.-The first actual ses sion of the peace congress is being held today, altho it is officially designated as one of the series of conversa-

tions for laying the ground-work for the structure which will later be presented to the formal assembly of the delegates of all the nations. These conversations will take up de -what subjects will be considered at the meeting, the roles of expert advisers and the order in which variou

natters will be considered. Today's meeting deals with the important question of the organization by which the peace congress will function. It is ilso to make a start toward a decision on one question uppermost in the public eye-whether the sessions will be under the full observation of the world or whether they will be secret.

Nothing has developed to alter the tatement that the American delegates are primarily concerned with the creation of a league of nations and the making of a just peace. Territorial for economic advantages among the European delegates are secondary in the minds of the Americans, who are concerned only with the assurance that these details when worked out, will square with the principles to be laid

on the first ballot. That is two more fan enough to mominate. While this is made by Lambertson, some fan enough to mominate. While this is made by Lambertson, some fan enough to mominate.
